

Student Tracker

- Lesson 1: Learning Sequence
- Lesson 2: Learning Branch, Jump (), goto ()
- Lesson 3: Making decisions, Conditional – if ()
then else ()
- Lesson 4: Fixing Errors, Bug and Debugging
- Lesson 5: Looping with repeat, bounded loops
- Lesson 6: Understanding Functions

Bonus lessons

- Lesson A: Introducing operations, greater, less than. Boolean - TRUE, FALSE
- Lesson B: Introducing Variable, string and numeric
- Lesson C: Nested repeat – Loop in Loop

Student Name:

Grade:

Coding Concept/Lesson	WorkSheet	Algorithm	Comments
Lesson 1: Learning Sequence			
Lesson 2: Learning Branch, Jump (), goto ()			
Lesson 3: Making decisions, Conditional – if () then else ()			
Lesson 4: Fixing Errors, Bug and Debugging			
Lesson 5: Looping with repeat, bounded loops			
Lesson 6: Understanding Functions			
<i>Bonus lessons (only worksheets, no Algorithm)</i>			
Lesson A: Introducing operations, greater, less than. Boolean - TRUE, FALSE		X	
Lesson B: Introducing Variable, string and numeric		X	
Lesson C: Nested repeat - Loopy Loop		X	

How to use this tracking :

If the student complete Worksheet or Algorithm, put a date or sticker in that column
